or contact our
Training Director
Phil Sanfilippo at
800.438.7884 ext.
1025 or by email at
phil@tritechusa.com.

Courses are presented
in partnership with
the International
Association for
Identification.

ADA / Special Accommodations

To ensure we can
accommodate persons
with special needs
who wish to attend
our courses, please
be sure to identify
the accommodation
needed when
you register, or if
applicable, at the time
you register by phone.

Host a course

By hosting one of our
courses, you will be
providing your agency's
personnel and the
forensic professionals
in your area with a
high-quality training
opportunity, right in
your local area. This
means less cost to
you or your agency
for expenses such as
travel, lodging, and
meals, and less time
away from home and
family. Plus, hosts
can qualify for tuition
savings. For more
information, visit
tritechtraining.com.

Physical & Chemical Processing of Latent Print Evidence

Instructor: Jennifer Peterson, CLPE, CSCSA

March 23 - 27, 2020 | 8 am - 5 pm

Tuition: \$599

Location:

Midwest City Fraternal Order of Police Lodge
8705 SE 15th Street | Midwest City, OK 73110

Lodging Information:

Sheraton Midwest City Hotel
5750 Will Rogers Road | Midwest City, OK 73110
405-445-1800

Room Rate: \$105 plus tax, includes breakfast daily

This course has been approved for 40 hours of certification/recertification training credit by the IAI Crime Scene Certification Board, the Latent Print Certification Board, the IAI Latent Print Certification Board, and the Tenprint Fingerprint Certification Board.

To register, visit tritechtraining.com or contact our Training Director Phil Sanfilippo at 800.438.7884 ext. 1025 or by email at phil@tritechusa.com.

ABOUT TRITECH

A leader in the forensics market, Tri-Tech Forensics provides evidence collection and crime scene investigation products and training to crime labs and crime scene investigators throughout the world. With over 30 years of experience, we are the nation's most proficient developer and manufacturer of forensic kits. We are committed to providing our customers with state-of-the-art forensics products and services at affordable prices. It is our goal, through our research and development program, to continue to develop superior products and training to aid in all aspects of crime scene investigation and crime lab analysis. We know how important our products and training are to the forensics community, from investigation to prosecution. Our mission is the same as our customers – *Identify. Protect. Preserve.*

COURSE DESCRIPTION

Physical & Chemical Processing of Latent Print Evidence

Latent Print Sequential Processing and Preservation course includes comprehensive training in evidence collection and physical and chemical processing of latent print evidence as well as latent print photography. The course will provide both lecture material and hands-on practical exercises.

Course Topics Include:

- Introduction to the anatomy and physiology of latent prints and latent print residue
- Major case prints and postmortem exemplars
- Latent print evidence collection practices related to specific forensic disciplines (firearms, digital forensics, fire investigation, biological evidence, questioned documents)
- Personal protective equipment laboratory safety
- Case file management, documentation, and pre-processing evidence photography
- Latent print processing: Porous and Non-Porous
- Latent print processing: special circumstance (fire debris, human skin, wet surfaces, tape adhesive, greasy surfaces)

- Latent print processing: Blood
- Forensic light sources and latent print photography

Latent Print Development Methods Include:

- 1,2 Indanedione
- DFO
- Ninhydrin
- Cyanoacrylate
- Rhodamine 6G
- Ardrox
- RAM
- Basic Yellow/Basic Red
- Fingerprint powders: Black, Magnetic, and Fluorescent
- Acid Yellow 7
- Amido Black
- Leucocrystal Violet
- Coomassie Blue
- Crystal Violet
- Small Particle Reagent
- Sudan Black

COURSE INSTRUCTOR

JENNIFER PETERSON, CLPE, CSCSA

Jennifer earned her Bachelors of Science degree at the University of Utah and completed her Forensic Death Investigation Graduate Certificate at the University of Florida. Jennifer has been employed as a Forensic Scientist since 2006 and is both a Certified Senior Crime Scene Analyst and a Certified Latent Print Examiner.

In 2009-2010, Jennifer deployed to Baghdad, Iraq, and operated as Deputy Director of the Combined Explosives Exploitation Cell-Biometrics Laboratory.

In 2012, Jennifer deployed to Afghanistan as an instructor at the Afghan Criminal Techniques Academy where she taught courses in latent print processing and latent print examinations.

Jennifer also worked for the Biometric Identification Management Agency and the Salt Lake City Police Department. Jennifer is a member of the International Association for Identification (IAI) and the International Association of Bloodstain Pattern Analysts (IABPA). She regularly consults with various entities on cold case investigations and participates in continuing latent print research projects.
